

THEMEVISION LLC

Presentation Graphics

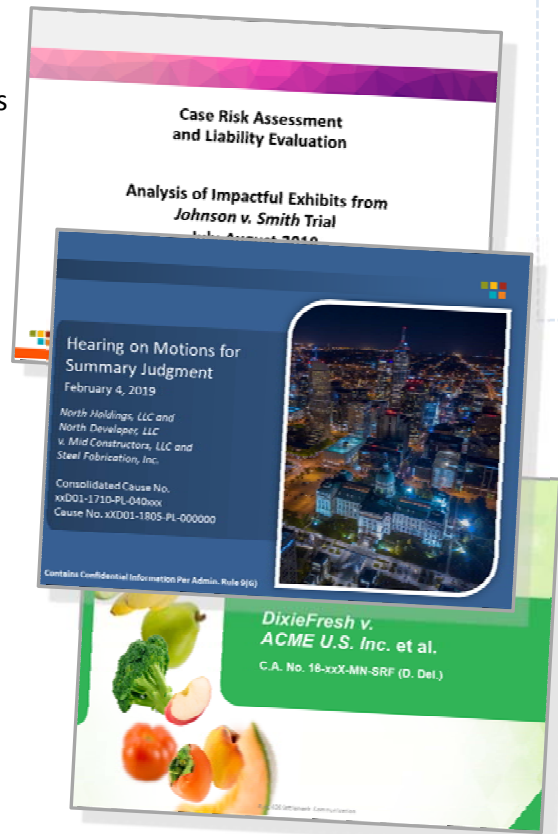

A good presentation combines words, images, and symbols, to inform, educate, and persuade. It not only captures the reader's attention, but leads them through a series of steps to understand and interpret your message to form a lasting impression.

ThemeVision brings decades of experience in identifying the thematic "glue" that can hold a story together and enhances those themes through design principles, including balance, emphasis, movement, rhythm, contrast, proportion, and unity.

ThemeVision can help translate your complex legal information into a straightforward yet compelling presentation.

Presentations to/for:

- Jury Trials
- Judges and prosecutors
- Mediations
- Experts
- Witnesses
